English Translation:

Warren Buffett's management secrets unveiled
Berkshire Hathaway's Biggest Specialist, Robert Miles, in Quebec City Wednesday Night

Warren Buffett's greatest specialist in the world, Robert Miles, arrives in Quebec City Wednesday evening to deliver a lecture on the genius of the "Omaha Oracle" and its management methods.

"Warren Buffett is unquestionably the greatest manager of the planet," Robert Miles, author of Robert Miles, wrote many books on the famous 88-year-old US manager.

Created in the early 60's by Warren Buffett, the investment firm Berkshire Hathaway generated last year a turnover of 223 billion US dollars and net profits of 24 billion US dollars.

Berkshire Hathaway holds leading positions in sectors such as finance, insurance, agribusiness, textiles, energy and building materials.

Buffett Empire companies include GEICO, American Express, Goldman Sachs, Fruit of the Loom, Comcast, Coca-Cola, Apple, Kraft, Heinz, Duracell, Gillette and Dairy Queen.

Robert Miles, who also teaches the "Buffett Method" in an MBA program at the University of Nebraska in Omaha, argues that the manager also stands out for the freedom he leaves to his managers to achieve growth objectives.

Since the beginning of Berkshire Hathaway, no division manager has left the company to work with the competition.

Everywhere on the planet

Author of three books and a course on the art and science of investment Warren Buffett and Berkshire Hathaway, Robert Miles travels the world to lecture on the subject.

For the past 20 years, he has been invited to more than 20 different countries and 15 universities to demonstrate "the genius of Warren Buffett".

Portfolio Manager at RBC Capital Markets in Quebec, Michel Bell is familiar with the Buffett environment, having just completed a development session at the University of Nebraska in Omaha.

Nice catch

He argues that Robert Miles' presence in Quebec City is one of his greatest achievements since he organized capital investment conferences. "He studied Warren Buffett from every angle. We have a lot to learn from its unique management methods and investment philosophy," he says.
